Carpet Cleaning

We strive to give you a superior standard of quality and performance with excellent cleaning results. Our carpet cleaning is renowned for excellent results in removing ingrained dirt, marks and stains. Our methods also kill bacteria and odours deep within the carpet fibres giving a long lasting clean.

We only use the best machines and solutions available for our carpet cleans. Our solutions are safe and environmentally friendly. Full COSH are available.

ProChem SteemPro 2000 machines. We use these machine for all our cleans including night clubs and pubs. They give fantastic results including residential carpets.

Chimney Sweeping

The chimney will be fully sealed stopping any soot or debris entering the room. Once this has been done to our satisfaction we will sweep the chimney. Any debris will be removed safely from the premises and disposed of. A certificate will then issued to confirm your chimney has been swept.

As you can see above if you do not regularly sweep your chimneys you can have an unexpected land slide of soot and debris. Regularly sweeps will remove any build up of deposits caused by gas and solid fuel fires.

We also offer other services:-

Chimney Balloons

These stop unwanted drafts and small soot falls caused by heavy weather or birds. They can be deflated once installed so you can reuse the fireplace.

The chimney balloon is placed
← here.

Chimney Cows

We also offer a chimney cowl service to supply and fit these to the top of your chimney (Inspection Required). These vary from a total; cap to bird deterrents. Please contact us for more information.

for all your cleaning needs

Driveway Cleaning

We clean your driveway using the latest machinery and solutions.

We can remove algae, moss, weeds, ingrained dirt and most types of oil. We also replace the sand giving you that new driveway look again. Our cleaning methods do not need much water and therefore not affected by water shortages.

Make your driveway look new again.

We also offer a driveway protection service. This protects against erosion and staining from oil.

Marble Floor Polishing

Refresh Services offers a service to clean and polish all types of marble flooring. We use low speed rotary devices with approved solutions to remove any build up of dirt and bacteria. We then apply a hard wearing polish which is buffed up to achieve a high shine and grip giving a long lasting shine.
